A-Z Computers

Web Site

Brief History

A-Z Computers was founded by Richard Cozart and Arlando Powell. Growing increasingly upset with the lack of availability of computer technology available to small business and middle-class income households, these capable young men decide to do something about it. This belief gave birth to A-Z Computers, a firm who is dedicated to fulfilling all the computer needs of its customers at prices that can be afforded by everyone.

Why Do you need a Website?

Interested in taking your business online? If you are not, then you should be. Owning a web site can be a great way to increase sales and improve the customer service of your business. A Web sites can expand the advertising potential of your business to limitless heights. It can create a line of communication to your customers that stays open 24 hours day, 7 days a week, and 365 days a year, informing customers of any information that you would wish them to have. Do you have goods or services that you would like to sale? If your answer is yes, then an E-Commerce page is just the thing you need. This page will give customers all over the world the opportunity to purchase your goods and services. It will allow your customers a way to order your products before, during and after your business hours.
